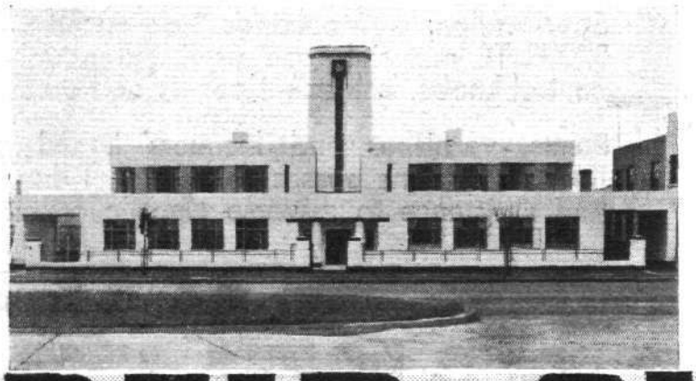
Coloured
ANODISING & PLATING

IMMEDIATE ATTENTION
COMPETITIVE PRICES



The Reid-Sigrist plant at New Malden is the most modern in the South for anodising and plating in cadmium nickel or chromium, and tinning. If you have had difficulty in getting high grade work done as and when you want it, just drop us a line. Our prices are competitive. We have recently installed plant for the new process of colour anodising, and should welcome inquiries.
